DETAILED ACTION

Allowable Subject Matter

1. Claims 1-20 are allowed.
2. The following is an examiner's statement of reasons for allowance: Applicants claim a method of estimating voiced/unvoiced information from a voice input signal, the method comprising transforming the voice input signal into an input spectrum having input spectrum energy, calculating a synthetic spectrum having synthetic spectrum energy using at least one of a fundamental frequency, a harmonic size and a window spectrum, determining at least one voice level decision band from the input spectrum and the synthetic spectrum, determining a band spectral difference energy for the at least one voice level decision band by finding the difference between the input spectrum energy and the synthetic spectrum energy, normalizing the band spectral difference energy with the input spectrum energy to determine a normalized spectral difference energy, and calculating a voicing level corresponding to the at least one voice level decision band using the normalized spectral difference energy, the voicing level calculated without utilizing a threshold such that a mixture of a voiced element and an unvoiced element are represented.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
